## DEFENSIVE SEA AREAS OF U. S. COAST DESIGNATED

### SHIPS NOT TO ENTER HARBORS TILL AFTER PERMISSION GRANTED

WASHINGTON, April 13.—An executive order designating defensive sea areas of the coast of the United States and insular possessions was made public today.

The regulations of the defensive areas, which embrace the principal rivers and harbor entrances of the Atlantic, Pacific and Gulf Coasts, provide that vessels shall not enter between sunset and sunrise or during bad weather. The United States will not be responsible for damage to persons or vessels inflicted with the object of enforcing the regulations.

The Savannah, Charleston, Tampa Key West and Pensacola entrances are included among the defensive areas.

### BIRD HOUSE EXHIBIT AT CASINO BURGUYNE SATURDAY

Saturday afternoon at the Casino Burgoyne there will be an exhibit of bird houses made by the pupils of the manual training departments of the Seabreeze and Daytona high schools. The exhibit will commence at 2:00 o'clock, and after prizes have been awarded, the bird houses will be sold. No admission will be charged but a silver offering will be taken the proceeds to go to the Civic department of the Palmetto club for the children's playground.

During the afternoon ice cream and cake will be sold on the balcony of the casino by the ladies of the Civic department. About 100 bird houses will be on exhibit. The little houses are practical as well as artistic and many are planning to avail themselves of the opportunity to secure them.

Three prizes of \$3, \$2 and \$1, will be offered, the first prize being for the house of best construction and most artistic appearance. Geo. N. Chamberlin, F. M. Rowe and Roland E. Stevens will act as judges. Mr. Chamberlin has been engaged for the past month in making the preparations for the exhibition.

### HIGH SCHOOL MAKES LIBERAL DONATIONS

The fund for helping the fatherless children of France, of which Cashier P. J. Niver of the Merchants Bank is treasurer, has recently been augmented by a fine gift of \$73.00 from the pupils of the Daytona High School.

This sum represents a considerable sacrifice on the part of many of the pupils and it is greatly to the credit of all that so large a sum was raised. Seventy-three dollars will support two French children for one year.

No donations have been received for the past two days. Those who wish to aid in this worthy cause may easily do so by handing their gifts to Mr. Niver while in the bank. The total of the fund now stands at \$1,679.77 or enough to support 42 children for the ensuing year.

The light shower early this morning gave a precipitation of .07 of an inch, J. G. Brown reports. This laid the dust and refreshed vegetation, but a heavy rain is needed to do real good to trees and vegetables.

A party consisting of Mrs. Lewis A. Stout, Edward S. Betts, architect, and mother, Mrs. Betts, Gerald Tonk and Eugene Jones, spent a very pleasant day last Wednesday on a trip to the interior of the state.

They left this city about 10:30 in the morning in Mr. Jones' touring car and going through Winter Park, arrived in Kissimmee at 2:30 after making the 85-mile run in excellent time. The party stopped at DeLand for supper on the return trip and arrived here about 10:00 in the evening.

### RAILROADS ASKED TO ARRANGE RELEASE OF COASTWISE SHIPS

WASHINGTON, April 13.—Through the Council for National Defense, the government has asked the railroads to rearrange their schedules and facilities so as to permit the release of virtually all coastwise vessels, many of which will be used to transport foodstuffs and supplies to the Entente allies.

Mrs. J. C. Sherwood and daughter, Mrs. Robert C. Crippen and little daughter, Frances Crippen, left yesterday to join Mr. Sherwood in Jacksonville on their return to Columbus, Ohio. Mr. Sherwood and Mr. Crippen motored to Jacksonville last week and expected to tour north, but were discouraged in this and Mr. Crippen continued by train while Mr. Sherwood awaited the other members of the family in Jacksonville. They were season guests at the Magnolia where they have spent other winters in the past.

### Bill introduced to Give President Great Powers Over Operation of Railway

WASHINGTON, April 13.—Power for the President to order railways to operate any part of their rolling stock during the wartime as the President sees fit without actually taking over the railroads, given in the common-carrier bill of last session, was reintroduced in the House today by Representative Adamson.

The measure gives the president power to control and operate all railways, telegraph and telephone lines, draft employees into military service, use militia to protect the railways and increase the Interstate Commerce commission to 11 members.

### DEBATE BEGINS ON \$7,000,000,000.00 WAR REVENUE BILL

WASHINGTON, April 13.—With Majority Leader Kitchen in charge, the debate began in the House today on the seven billion dollar war revenue measure, with prospects of its passage before tomorrow night.

Great applause from both sides of the House greeted Kitchen's opening statement. It is interpreted to mean that there will be little opposition to the measure; also that the chance has passed of Kitchen being deposed as the majority leader.

COMMENT ON THE LETTER BELOW IS UNNECESSARY.

STATE OF FLORIDA, EXECUTIVE OFFICE  
S. J. Catts, Governor  
Tallahassee, Feb. 25, 1917.

Dear Sir: You turned me down COLD on my application to the President for parole of Blake Campbell. Why did you do it? Thousands of other men worse than he are out.

I want to tell you square from THE SHOULDER that you and Pres. Wilson are just like OTHER MEN to me, and I demand FAIR treatment.

Why can't I get Blake Campbell's case before Mr. Wilson? Tell me the reason, and if there is any reason why I cannot I will remove it, but if you give me a raw deal I will run for Pres't and get it, and turn YOU OUT. Now I am GOING TO GET THIS pardon for Mr. Campbell and you might as well look at it from that angle. So write me all I must do, and help me like a man to get it. Best wishes,  
Yours truly,  
SIDNEY J. CATTS, Gov. of Florida.

### GERMAN RETIREMENT DID NOT STOP RUSH ON HINDENBURG LINE

The British announce the capture of German positions on a nine-mile front from a point north of Hargicourt to the village of Metz en Couture after severe fighting. This section is between Arras and Cambrai.

It is in the region southwest of Cambrai that the great German retirement of last month took place. According to the Germans this retirement was to have delayed the contemplated British offensive here for weeks, if not months. Nevertheless, the British have been able to bring up guns across the devastated territory, organize communications and deliver a smashing, effective blow within a comparatively few days upon the famous Hindenburg line, besides their successful attack south of St. Quentin, in the face of desperate German resistance.

The French announce that they attacked south of St. Quentin and took several trenches.

The French also announce that they have kept up their offensive south of the Oise river, making fresh progress east of Cousy Laville.

Germany announces that counter attacks and thrusts balanced the British attacks against Angres and Givenchy en Gohelle, and say the French attacks south of St. Quentin failed.

### SPLENDID INDIAN PROGRAM GIVEN AT PALMETTO CLUB

Two tepees amid a forest of palms and live oak branches, walls hung with Navajo blankets, floors covered with still other Indian blankets, pottery, baskets, moccasins, wampum belts, and war implements, made of the stage in the auditorium of the Palmetto club yesterday a village so typically Indian, that two hundred guests forgot 20th Century days to go back to the romantic era of the North American Indian.

The Indian program given by the calendar committee was one of the most interesting that the club members and their guests have enjoyed. A program of Indian music, legends, poetry, a camp fire ceremonial and a talk by Charles F. Burgman carried out the Indian note to the smallest detail.

After Mrs. N. C. Sears, president, had called the meeting to order and read several announcements, Mrs. Smith G. Young, as chairman of the calendar committee took charge of the program.

An amazingly realistic squaw was Mrs. Young in her Indian costume, a turkey quill thrust in her braided hair, immense rings of gold in her ears, her blue calico dress bordered with Indian symbols. In the door of one tepee sat Mrs. Charles E. Gardner, costumed as a squaw, who stolidly strung bright colored beads to adorn her already much beaded wrists and neck. At the other side sat a Seminole squaw, known to her white brothers as Mrs. Emma Freeman, who passively ignored her audience while she fashioned a wampum belt for her Indian lord. And presiding over his village with haughty mien was a chief, who was not revealed to his audience as Charles F. Burgman until he doffed his costume.

The first number was a piano solo, "To An Indian Lodge," (McDowell) by Mrs. Snyder. With delicate phrasing of the lighter strains and full phrasing of the somber passages, Mrs. Snyder rendered her number with the touch of an artist.

Mrs. Young gave a series of statistics taken from the last annual report of the Indian commissioner of the United States, that told her audience many interesting facts. According to statistics given by Mrs. Smith the Indian population of the United States exclusive of Alaska is 335,753, and the race is found in every state in the union, Oklahoma having the largest number with 119,000 and Delaware the smallest with 5. The audience further learned that 30 per cent of the Indians are church-going, the same percentage can speak English and 25 per cent, of the male population are voters. The Indians are acknowledged by authorities to be the best sheep raisers, owning 2,000,000 sheep.

Led by Mrs. W. O. Upson, guardian of the camp, the Silver Beach Camp fire girls gave a ceremonial that proved one of the most charming numbers on the well arranged program. After a stately ritual of "Wehelo," the watchword of the camp fire, signifying "work, health and love," Mrs. Upson gave a resume of the aims and accomplishments of the organization. The beautiful ceremony given by the girls ended with the impressive camp fire oath, and they left the stage amid appreciative applause. The girls of the Silver Beach camp fire are Mildred Davison, Agnes Lowe, Alleyne Webber, May Haigh, and

Katharine Wright. Mr. and Mrs. Charles H. Willson and Miss Ruth Coates played a mandolin and guitar accompaniment to the camp fire number.

Accompanied by M. P. Cornwall at the piano Miss Alice A. Kimball gave two Cadman numbers, "Land of the Sky Blue Water," an Omaha tribal melody, and "White Dawn is Stealing," an Iroquois melody. Miss Kimball's beautiful soprano was heard to advantage in the haunting melodies and she responded to an encore.

Following Miss Kimball, Charles F. Burgman held the undivided interest of his audience while he outlined briefly the history and character of the North American Indian, telling many interesting personal experiences with the Indians while in a Cheyenne campaign with the famous General Miles. An able speaker, and possessing a platform personality that added much to his talk, Mr. Burgman delighted his audience with several amusing anecdotes and showed a comprehensive knowledge of Indian history and the character, possessed by few who have not devoted years of study to the subject. During his talk Mr. Burgman showed a silver piece presented to him by an Indian Princess, a direct lineal descendant of King Phillip, a wampum belt of the Idaho Indians, and an Indian basket the gift of a squaw.

Mrs. Charles E. Gardner's delightful number was an Indian legend of the creation, told to her by "Jim" a Seminole Indian. Mrs. Gardner gave the legend with the ability of a gifted raconteur, and a graceful phrasing that added much to her interesting story.

The concluding number on the program was a poem, "An Indian Prophet," (Charles Eugene Banks), read by Mrs. Emma Freeman. The Indian costume worn by Mrs. Freeman was the dress worn by a Seminole squaw that took the prize in the sun dances held last year at Miami. Mrs. Freeman possesses unusual talent as an elocutionist, and the beautiful lines lost nothing in her delivery.

Mrs. N. C. Sears then made several announcements. Mrs. R. S. Maley read a letter from the Volusia County Planning society to the County commissioners protesting against advertisements on trees in the right of way of the county roads, and the commissioners reply to the society, a letter to Mrs. C. M. Wilder, president of the organization. The letter advised that the county commissioners had passed a resolution to carry out the request and to forbid the posting of signs, and the removal of those already posted.

The Indian program was ably arranged in every detail and much credit is due the calendar committee, headed by Mrs. Smith G. Young, who had charge of the affair.

**History of Oils.**  
For twenty centuries the oil lamp, with very little variation in general design, served the purpose of lighting interiors, from the hovel of the peasant to the palace of the king, from the cave-dwelling of the early Christians to the stateliest religious temples of medieval and modern days. Up to the middle of the nineteenth century only oils of a vegetable and animal origin were employed. Then, in 1859 James Young of Scotland introduced the mineral oils, kerosene and paraffin.

**The Greenwood Tree.**  
The greenwood tree of English song and story is now said to have been the holly, which retains its bright dress the year round and is supposed to have stood Robin Hood and other outlaws in good stead, when, clad in Lincoln green, they sought its shelter, depending on the law of protective coloration to escape the laws of Nottingham town and other troublesomely inquisitive municipalities.

**Where the Paint Was.**  
Regular Customer (who has just entered restaurant)—"Strong smell of paint here, William." Waiter (coughing apologetically and haltingly young women about to leave table)—"Yes, sir; soon pass off, sir; they're just going."—London Punch.

**The Clear Conscience.**  
Every man should so live that he need not worry even when he knows that he talks in his sleep.

**Prehistoric Germs.**

In these days, when disease microbes are so much discussed, it is hard to realize that disease germs have been on this earth for millions of years. The fact of their long existence isn't mere theory, for certain minute forms discovered in limestone formation proved conclusively that bacteria lived and flourished in prehistoric times. These prehistoric bacteria show many of the characteristics common to our twentieth-century germs.

### COUNTY BOARD TAKES ACTION AGAINST THE OBNOXIOUS SIGNBOARD

The Volusia County Planning society, whose aim is to beautify the highways and byways of Volusia county, recently sent the following communication to the board of county commissioners:

"Daytona Fla., March 28, 1917.  
To the Honorable Board of County Commissioners, Volusia County, Fla.:

"Dear Sirs: We, the Volusia County Planning society, respectfully call the attention of Your Honorable board to the advertisements of various descriptions attached to trees in the right of way of the county roads. Not only are these unsightly objects but they are actually injurious to the trees themselves, the nails by which they are attached permitting water as well as insects to penetrate into the living bark of the trees.

"We hereby petition that you take action that will prevent the displaying of any unauthorized advertisements in the right of way of the county roads.

"Respectfully,  
"MRS. C. M. WILDER, Pres.  
"MRS. J. D. PRICE, v. s. sec. pres.  
Prompt reply from the board was received as follows:

"April 6th, 1917.  
"Mrs. C. M. Wilder, Daytona, Fla.:  
"Dear Madam: This is to advise you

that the county commissioners, at their session, April 5th, 1917, passed a resolution tending to carry out the request as made by the Volusia County Planning society in the removal of all signs from the county highways.

"Yours very truly,  
"SAML. D. JORDAN,  
"Clerk Circuit Court."

### FRIDAY, THE 13TH, BRINGS A COMBINATION OF THIRTEENS

Friday 13th! Witches' day—but add to that 13-13-13 Blue-13. No, its not the combination to the First National Bank—the latest wrinkle in German codes of the winning combination at Monte Carlo. Its the 13th season, the 13th issue of the Daily News, and the editor being one of these one-ideaed persons (where superstition is concerned) has 13-Blue for his phone number and 13 for his automobile license.

And the News instead of going to its grave under a weight of "13s" that would undoubtedly arouse a suicidal mania in an ordinary publication gains strength with every new "13" piled on its shoulders. In fact if there's any new conquest to be pulled off—in the way of a few 100 additional subscribers or 15 or 20 pages of advertising—the News looks around for a "13" to attach its chariot to.

You can hear them gnash their teeth and mutter—those battalions of superstitious people, who shiver at the mention of "13" and gaze with suspicion on any individual who declares himself in favor of the down-trodden figures. To explode with malice aforethought and deliberate intention their pet theory regarding "13s" immoral character. When "13" forms an alliance with Friday—well, its positively all up with Friday—that is, according to that conservative circle who are savoi-faire where superstition is concerned.

On trial "13" accused of every crime ever committed! Consul for the defense will now be heard. The News

hereby attempts to prove that "13" given a fair show would be an influence for good if rid of the accusations that now bar it from the best circles. As afore stated the News is itself in its 13th season, its 13th issue falls on Friday 13th, and it finds itself nearing the end of the most successful season in its history.

Friday the 13th has been a banner day—everybody came down on time (even the cub reporter) and fell on their type-writers with whoops of joy—the solicitor staggered under a weight of new subscriptions—the linotype operators and makeup man declared a truce—the janitor became obsessed with the idea that cleanliness is necessary at times if his job is to be kept intact—and washed a window—advertisers poured in a steady stream to settle up accounts and contract for new ads (at one time the crush was so great it was almost necessary to call in the police force to prevent a riot)—and—the paper went to press on time! Who said Friday 13th was UN-lucky?

Witnesses for the defense are Mrs. W. C. Green and Mrs. J. L. Wetherby of Daytona Beach, who were born on the "13th" and simply would not consider any other day as a birthday.

With the foregoing the defense rests its case.

Where are all those dread events your vivid imagination pictured for today—they're still right there aren't they?—in your imagination. Friday 13th has behaved in an impeccable fashion worthy of the most demure debutante, how hasn't it?

#### MR. AND MRS. CHAMPLIN'S DINNER FOR DR. LANGWORTHY

A reunion of friends of many years and a birthday celebration were the features of the charming dinner party given by Mr. and Mrs. George A. Champlin last night at their winter home, 34 Bay street.

Dr. William P. Langworthy was the principal guest, the delightful affair being given in celebration of his birthday anniversary.

A profusion of Lombard roses were used in decorating the living room and dining room, a color motif of pink and white predominating. A birthday cake, cleverly frosted in intricate designs and bearing the date (April 12, 1917) was one of the many things that made the attractive party an altogether enjoyable event for Dr. Langworthy.

Another happy feature of the reunion of Rhode Island and New York people was the presence of Dr. W. C. Daland, formerly pastor of the Seventh Day Baptist church, of Westerly, where all of the guests had attended services during the pastorate of Dr. Daland.

Seated at table were Dr. and Mrs. Langworthy, Dr. Daland, Mrs. A. L. Chester, of Westerly, R. I.; Mrs. Eugene Stillman, also of Westerly; Mr. and Mrs. Edgar Greene, and Miss Streeter of Berlin, N. Y.; Mrs. Whalen Lewis and Mr. and Mrs. G. A. Champlin, of Westerly.

Mr. and Mrs. Champlin, who have been coming to Daytona for the past 24 years, bought their attractive bungalow on Bay street this season. The event last night was the last in a series of charming dinners at which Mrs. Champlin has entertained this winter and was in the nature of a farewell gathering of the loterie of friends, some of whom will leave next week for the north.

L. M. Waite, manager of the Despland hotel which recently completed one of the most successful seasons in its history, departed this morning for New York where he will spend about a month, booking reservations for his summer hotel, So-Skip Lodge, Lake Sunapee, N. H. Mr. Waite was accompanied as far as Jacksonville by his mother, Mrs. L. J. Waite, who had been here during the winter, as usual, and is now on her way to Seattle, Wash., to spend the summer with her daughter at that place. Mrs. L. M. Waite and sons will remain here for awhile.

Friends will be glad to learn that Leon H. Rowe is reported to be somewhat improved today. Mr. Rowe has been quite ill for several days at his home on South Palmietto avenue.

#### AUTOMOBILE PARTY WILL MOTOR TO NEW YORK CITY

An automobile party of three cars left Daytona Wednesday of this week to motor to New York. The party included Mrs. H. A. Banyon and Mr. and Mrs. Charles Wilson on their return to Cooperstown, N. Y., in Mrs. Banyon's car, L. F. Stearns, winter resident of New York avenue, in his car, on his return to Cooperstown, accompanied by Mrs. Yates and two boys and Mrs. Brown and Miss Brown and Fred Campbell who was accompanied by Mr. and Mrs. Ferrill and Mrs. Thompson.

More in Life Than Wealth.

Wealth has made a lot of poor husbands and worse wives. Knowing something about cooking, a square meal, and keeping sweet, is far better than counting money with a growl.

#### Read the War News.

A teacher in a large school near Stockton happened to be taking the story of Adam for the Scripture lesson. During the lesson she asked: "Who was it that came creeping and crawling into the garden?" She was rather amused, but not surprised, to hear in reply from one little fellow, "Please, miss, it was a sniper."

#### MISS WILLIAMS' BEAUTIFUL PARTY FOR MISS MALEY

Pink was the key note of the appointment of the pretty party that Miss Dora Williams gave yesterday afternoon to honor Miss Virginia Maley, who has been much feted since the announcement of her engagement to Allen Shaw, of Ormond and Jacksonville.

Pink roses and azaleas were effectively used in the living room, where the guests spent two delightful hours making picture biographies for each other. There were biographies that foretold fascinating futures, and amazing past events that surely never occurred save in the fertile imaginations of the biographers. There were still others that were cleverly true to facts, and when the finished products were exchanged the heroines read their mistold lives eagerly.

When the guests were invited to the dining room they found two cakes blazing with lighted tapers. The first with its glistening white frosting could have been meant for no other than Miss Maley, while the other laid in pink proclaimed the hostess' birthday with its requisite number of pink candles. An immense basket of fragrant Killarney and bride's roses was used for the table centerpiece, while the bonbons, ices and cakes reflected the pink note. A two-course luncheon was served, the pink and white color scheme being carried out in many clever ways. Miss Williams was assisted in serving by Miss Rosalie Shultz and Miss Elizabeth Lawrence.

As a memento of the charming affair Miss Maley was presented with a lovely bit of lingerie for her chest.

Those enjoying the happy event with Miss Williams and Miss Maley were Miss Lillian Bingham, Miss Constance Maley, Miss Inez Barron, Miss Lee Bowers, Miss Antoinette Foltz, Miss Emma Wallace, Miss Arline Crenshaw, Miss Alyce Green, Miss Ruth Rodgers, Miss Ethel Shultz, Miss Rosalie Shultz and Miss Elina Beth Lawrence.

There is no better ornament for the interior than silence, and do not let anyone know that he is not being listened to by your K. K. K. K.

**Awkward Age.**  
Father—"And just how old are you, Willie?" Willie—"Mother says I'm too young to see the things I like, and too old to see when I don't get them!"

**Real Cleverness.**  
"He's a clever photographer!" "Makes pictures of people as they look I presume." "Of course that's true, but makes them as they 'think they look'!"—Detroit Free Press.

**Domestic Sacrifice.**

**Attaining Clear Conscience.**  
A clear conscience is always comforting. What an asset is a conscience to really feel you have done the best you can! And the only way to have such a conscience is to do the best you can.

#### "Cancer" in Plants.

Extensive researches by plant pathologists of the agricultural department on the development of crown galls upon plants show that these galls, which are caused by a bacillus, have many points of resemblance to human cancer.

#### PLEASANT SURPRISE ON BIRTHDAY ANNIVERSARY

S. Mills was pleasantly surprised relatives who held a celebration of relatives who held a celebration on his 71st birthday anniversary at the home of his son, Eric D. Mills, and family on West Magnolia avenue. No set program had been arranged, but

the evening was enjoyably spent in social converse and at refreshments which included a large birthday cake and its accompaniments.

Mrs. T. F. Evernden left yesterday for Mountevallo, Ala., to visit her daughter, Miss Mary Evernden, and some time in May.
